

JBL GTO AMPLIFIERS

Distributor: Convoy International

Price: From \$399

Website: www.ahifi.com.au

Phone: (02) 9700 0111

Seven new GTO series amplifier models with outputs of up to 1500 Watts RMS have now arrived. Special attention was paid to the amplifiers' high-quality electronics, their level of power output and their sophisticated and elegant exterior design. All the amplifiers come with high-quality connection terminals, have substantial power-supplies and feature an attractive and high-quality finish. The amplifiers' low profile aluminium housing ensures efficient cooling and should provide a stable operating environment. All new GTO amplifiers also feature discreet white LED lights.
