Esthetically exquisite system

Harman Kardon® HK 990 and HD 990

One of the greatest brands of the "golden age" of hi-fi, Harman Kardon is just as great today. After a short look at the CCL curves and the Tritim curves of the HD 990 compact disc player and the HK 990 amplifier, the Italian magazine *AUDIO REVIEW* declared their performance outstanding.

Harman Kardon® HK 990 / HD 990

Editor's conclusion:

"The latest system introduced by Harman is a very cool proposal. Designed using the most innovative technologies and superbly manufactured, employing high-quality components, the HD 990 and HK 990 are together also an aesthetically exquisite system. In short, a great, versatile and elegant audio system produced with the best available material and sold at an appealing price."
